medical point-of-care systems

medical point-of-care parameters

We offer an extensive portfolio of medical point-of-care parameters for our CUBE-S analyser. The scope of application includes assessment of inflammation status and cardiological risk, monitoring of coagulation status, diabetes and liver disease, as well as cancer screening.

<i>parameter</i>	<i>field of application</i>	<i>sample size</i>	<i>blood</i>	<i>serum</i>	<i>plasma</i>	<i>other</i>
CRP	<i>inflammation status</i>	5 µl	🩸	💧		
hsCRP	<i>cardiological risk</i>	20 µl	🩸	💧		
Cystatin C (GFR)	<i>renal function</i>	20 µl	🩸	💧		
HbA1c	<i>diabetes monitoring</i>	10 µl	🩸			
PT (INR)	<i>coagulation monitoring</i>	20 µl	🩸			
Troponin I	<i>MI-diagnosis</i>	50 µl		💧	💧	
Ferritin	<i>iron deficiency disorders</i>	50 µl		💧		
D-Dimer	<i>VTE-diagnosis</i>	20 µl			💧	
iFOB	<i>colorectal cancer screening</i>	40 µl				💧 faeces

CUBE-5 instrument

technical details & specifications

Dimensions & weight

23.5 x 13 x 14.5 cm (with Tablet PC) / 2.4 kg

Connectivity & data management

Bidirectional data transfer to practise management software, HIS and LIMS

Unique cloud-based data management with EOS *

Connection to PC via ConneXport **

RFID technology

Automatically detects assay type, number of tests, expiry date, pre-set calibration curves & quality criteria

Tablet PC interface

Convenient Android-app-based handling

Bluetooth, USB and RS-232 connectivity

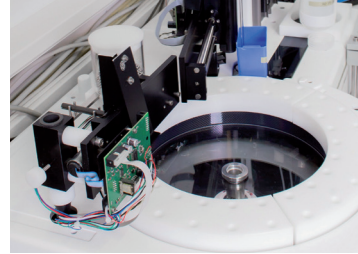

Maintenance & calibration free

Fully automated „walk-away“ analysis

Results in a matter of minutes, rather than days

DESIGNED &
ASSEMBLED
IN AUSTRIA

Eurolyser is one of the leading manufacturers of point-of-care diagnostic tests and instruments, successfully distributing goods worldwide for more than 15 years.

Our strength is in our in-house R&D which ensures the improvement of our innovative and globally patented products. We accept no compromises when it comes to quality and reliability. Therefore, we partner exclusively with ISO- and CE-certified manufacturers in Germany and Austria who share our philosophy for impeccable quality and who uphold strict production and quality control standards.

We continuously innovate our products to provide our customers with the best medical and economical value. Together with our customers we explore new fields of application to shape the future of medically effective and cost-efficient solutions.
